About DCP

Since 1985, Diversified Chemical Products, Inc. has been a one-stop-shop for businesses large and small wishing to have privately labeled chemical products. At DCP, we realize how important your business is to you. Your business is very important to us as well. That is why we dedicate ourselves to our customers, large and small. We offer high quality, small and large quantity private label chemicals.

During our past year, we have strived to improve our manufacturing capabilities, refine our procedures, and expand our current product line by developing new and exciting products for our customers.

In the years to come, we will continue to serve you, our customer, to the best of our ability. We look forward to your continued business!

About Our Products and Product Lines

DCP and Pro Master

Our products are manufactured with care and quality control tested to ensure our customers and your customers not only get what they expect, but are satisfied and continue to come back for the quality products they expect. Most of our products are formulated as concentrates. Our in-house label, *Pro Master*, features our ready-to-use products, which are also available for private label with a minimum purchase. We also offer products by the QuestVapco Corporation and Core Products Company.

QuestVapco Corporation

A trusted manufacturer of chemicals, QuestVapco produces a full line of aerosol sprays (including metered air fresheners) for industrial maintenance, cleaning aids, insecticides, and herbicides. QuestVapco also manufactures a full line of HVAC products in liquid and aerosol form. These products are available through DCP and are featured in this catalog.

Core Products Company

Core Products Company has been a trusted manufacturer of specialty chemical products since 1976. We offer their complete carpet care product line; including extraction detergents, stain removers, and spotters. We also offer their very popular line of odor control solutions.

About This Catalog

You will find a color legend and complete table of contents on the following pages. Our principle product categories are listed emboldened in large font, with each sub-category cited below with a corresponding page number, making finding what you're looking for an easy task.

A dilution ratio or citation for ounces to use to make a gallon of mixed product is listed when appropriate. See our index for formulas for converting a dilution ratio to ounces per gallon and to calculate cost per diluted gallon.

This catalog is also color coded: Light blue lists represent in-house manufactured DCP products available for private label. Light-orange lists indicate ready-to-use (RTU) products in quart containers. These products can be private labeled if minimum order requirements are met, otherwise they will be screen printed under the *Pro Master* label (minimum order is annotated after each product line list). QuestVapco products available through DCP are listed in light green and Core Products Company products in purple.

Terms and Conditions

Customer Commitment

Diversified Chemical Products, Inc. is a customer-committed manufacturing organization. We supply you with quality chemical products and accessories in a timely manner with accurate shipping and product information as well as capable technical and sales assistance as part of our standard service. We are committed not only to our quality chemical products but to you, our customers.

Wholesale Only Terms

Diversified Chemical Products, Inc. shall not make direct sales to end-user customers. Proof of a state resale tax form is required prior to purchasing products from Diversified Chemical Products, Inc. Shipments can not be made to past-due accounts. Diversified Chemical Products, Inc. reserves the right to subject any past-due account to a monthly interest fee of 1.5% of the open balance. A \$25.00 fee will be assessed on any returned checks. Reasonable attorney and collection fees will be added to any collection claims.

Freight Terms

All pricing is F.O.B. our dock. Our dock is located in Riverside, MO. Orders will be shipped on a prepaid and add basis unless otherwise directed by the customer. Drop shipments will be sent prepaid and add unless otherwise specified.

Drop Shipments

DCP is happy to drop ship to your customers. We can even mark your firm as the shipper! Drop shipments will be sent prepaid unless otherwise specified. Freight charges will be added to your invoice.

Customer Pick-Up

Orders that have not been picked up within 48 hours, after the customer has been notified they are ready, may be invoiced to the customer.

Private Labeling

Private labeling is available for orders meeting quantity requirements. Our in-house graphics artists are available to assist you in creating a label based on your current branding. Once your custom label is complete, a draft will be sent to you for your final approval. Future changes to an approved label may be made for a re-labeling fee.

Product Warranty

Diversified Chemical Products' liability shall be limited to any defective product and all claims must be presented in writing, received within 12 months of the invoice date, and the merchandise must be available for inspection by Diversified Chemical Products. In no event shall Diversified Chemical Products be liable for any incidental or consequential damages as a result of any defect of its products.

Returned Merchandise

Prior authorization is required on any returns and may be subject to repackaging and restocking charges.

LEGEND

For ease of use, this catalog is color-coded by the manufacturer. Products manufactured by DCP are listed in light blue and orange tables. Red tables indicate Pro Master products sold in ready-to-use quarts, bags, or other containers. These products are available for private labeling, so long as minimum order requirements are met. Products manufactured by QuestVapco are listed in green tables, while items from Core Products Company are listed in purple table.

Calculations and Equivalents

Dilution Calculations

Ounces per Gallon

128 / Dilution Ratio = Ounces/gallon

Ex: 128 / 64 [1:42] = 2oz./gal.

Dilution Ratio

128 / oz. per gal. = Dilution Ratio

Ex: 128 / 2oz. per gal. = 64 [1:64]

Cost

Per Diluted Gallon

\$ per gal. / Dilution Ratio = \$ per diluted gal.

Ex: Mint Clin. Dis. \$8.25 / 64 = \$0.1289 per diluted gal.
